Custom Built Systems

Using the high impact SKB line of road cases, we can put together a fully ready to Karaoke or a crossover DJ and Karaoke system. We will consult with you on your application and size of events and can configure a system that will suit your needs. As shown in the example to the right, your system can be easily set up for plug and play, plug the unit into the wall socket and your speakers to the unit and you are ready to Rock 'N' Roll. Simple amp, dual amp, and tri amp models are available to match up with sound boards, equalizers, crossovers, for several different styles of players and systems. There are many different models of the SKB road cases, all in ones, smaller units that stack for lighter individual pieces to carry, on wheels, table tops, pretty much anything your heart desires; and it will be done !!

QSC - RMX2450

Professional Power Amplifier

2400 watts in 2 rack spaces
Professional quality performance incorporates road-proven QSC designs. High-current toroidal transformers for greater two-ohm power and low noise. Independent user-defeatable clip limiters reduce distortion. Selectable low-frequency filters (30 Hz or 50 Hz) protect speakers and increase headroom. Balanced 1/4" (6.3mm) TRS, XLR and barrier strip inputs. Binding post and Neutrik Speakon outputs. Front mounted gain controls for easy access. Signal and Clip LED indicators to monitor performance Independent DC and thermal overload protection on each channel automatically protects amplifier and speakers. 3-year warranty plus optional 3-year extended service contract.
